

Asbestos Awareness E-Learning Course

Anglia Skills Academy is pleased to offer a simple, online means of obtaining an industry recognised certificate to show that you are competent in asbestos awareness.

All you need to do is request an application form by email to enquiries@asal.org.uk.

We will send you the application form by email, which you should then complete and return with your payment of £45 + vat (Total £54.00) (Cheque or card)

Once we confirm your payment we will send you the information and examination pack which contains the following documentation:

- Instructions for "E" Learning & Terms and Conditions
- Asbestos Awareness Course Notes
- Asbestos Awareness Test Paper

You can then study the course notes and complete the examination form in the comfort of your own home, or at work, then return the answer sheet to us for marking.

On achieving the pass mark or above, we will email your certificate which is valid for 12 months.

If you have a business and need to register more than one employee, you may apply for as many application forms as you wish - one for each employee
